

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

TREASURY DEPARTMENT
OF THE STATE OF ALABAMA

Montgomery, Oct. 1, 1916.

*Hon. Charles Henderson,
Governor,
Capitol.*

DEAR SIR:—In compliance with the requirements of Section 624 of the Code, I herewith transmit to you the annual report from this Department showing receipts and disbursements for the fiscal year beginning October 1st, 1915, and ending September 30th, 1916, embracing statements of all money paid out on account of the State, for such year, specifying the amount, to whom paid, and for what, with an exact balance in the treasury. Also a condensed statement of the bonded debt of the State, together with a list of all coupon bonds exchanged for registered bonds.

Statement of the daily condition of the treasury giving total receipts and disbursements for each month, included therein, shows that for the months of December, January, February and March, the receipts greatly exceed any other months of the year, due to the fact that a large per cent. of the State taxes reach the treasury at that time, and the increased disbursements during these four months is caused by the heavy demand upon the treasury in the payment of auditor's warrants hypothecated with banks that are redeemed during these

months. The balance in the treasury has to be accumulated during these periods to meet the payment of such warrants.

The balance to the credit of the bond redemption fund, on deposit with the National Park Bank of New York, the State's fiscal agent in that city, is \$33,600.00. No bonds have been redeemed during the past fiscal year.

I respectfully call your attention again to the fact that the four per cent. Funding Bonds, amounting to \$954,000.00, issued under act of the General Assembly, approved February 27th, 1887, and amended by act approved February 27th, 1889, and dated January 1st, 1890, mature January 1st, 1920.

Respectfully submitted,

W. L. LANCASTER,
State Treasurer.

ARTICLE XI.

213. After the ratification of this Constitution, no new debt shall be created against, or incurred by this State, or its authority, except to repel invasion or suppress insurrection, and then only by a concurrence of two-thirds of the members of each House of the Legislature, and the vote shall be taken by yeas and nays and entered on the Journals; and any act creating or incurring any new debt against this State, except as herein provided for, shall be absolutely void; provided the Governor may be authorized to negotiate temporary loans, never to exceed three hundred thousand dollars, to meet the deficiencies in the Treasury, and until the same is paid no new loan shall be negotiated; provided further, that this section shall not be so construed as to prevent the issuance of bonds for the purpose of refunding the existing bonded indebtedness of the State.

NOTICE.

To holders of coupon bonds, who may wish to have the same converted into registered bonds, or who may wish a transfer of the registered bonds, must present the same at the State Treasury for that purpose at least ten days before the first days of January and July of each year; thereby enabling the Treasurer to issue and properly distribute checks for the semi-annual interest accruing on said bonds on the respective dates named.
